IMPORTANT INFORMATION

You have received this notification because construction is due to start in your neighborhood.

You will shortly see crews from Aspire

Communications in your street carrying out important work to lay fiber infrastructure that will digitally future-proof Rancho Cordova for generations to come.

What will we be doing?

With a microtrenching machine we will cut a thin shallow trench in the roadway close to the curb, where we will lay the fiber conduit. We will then refill the trench and reinstate the road.

How long will construction last in my street?

We aim to be past your home in just one day. You may see us again at a later date removing utility markings the rain has not washed off.

If you have any questions about the construction of the FiberCity® project, contact us
